Proposal

1. **What reference material are you using?**

The reference materials that I am planning to use are a penny, nickel, dime, and a quarter. And on those coins I will put photos of Marsha P. Johnson, Dolores Huerta, Martin Luther King, and the Wesleyan Chapel back in 1848.

2. **What is your plan of action with the reference material?**

My plan of action is to make “woke” or more progressive coins. What that means is to change the people and events on the coins that we know of today and make them important people that played a role in the empowerment of minorities like black people, latinos, women, and queer people.

3. **Why are you using this reference material?**

When you were showing an example of the citizenship papers sent to your mother it resonated with me, and made me want to do something that shows my beliefs and wokeness for lack of a better term. Also it is just one of the first things that I thought of because I saw a tiktok of the coins Donald Trump wants to make.
